Brooke's Pharmacy Now Open In The West Georgia Shopping Center

The overall experience of Brooke's Pharmacy on grand opening day was beyond all expectations! Brooke's Pharmacy is truly different from all other pharmacies I have ever been into. The atmosphere does not make you feel sick when leaving. You absolutely want to stay for as long as possible. Everything from the branding to the isles in the store is all similar. You know it's Brooke's Pharmacy. The store is family owned and operated right here in the West Georgia Shopping Center. The store opened on September 23rd. Many of the items you find are health related but there is also a small gift section featuring College Football! Other products carried are Olivina, Tyler Candle Company, Caren, and more. Brooke's Pharmacy is worth checking out and sending all your prescriptions to!

Former Polar Cub and La Hacienda Will Become La Pareja

Another mexican restaurant is coming to Carrollton. This time on the northside of town. The former Polar Cub and La Hacienda will be home to La Pareja sometime this month. The inside of the building was in great shape while waiting for someone to lease. The new owner of the restaurant took us on a tour in September and is ready to provide great mexican food back to this location.

Construction off Cedar Street to Bring Plumbing Supply Distributor

Construction crews are in the process of clearing the land at 870 Cedar Street to make room for a plumbing and water heating supply distributor. According to construction crews, Carrollton Winnelson will move it's current location off Tom Reeves Drive to Cedar Street soon. According to it's website, Winnelson is the leading distributor of plumbing and water heating supplies in the United States. They have many locations west of I-285 in the Atlanta metro area. The construction area covers an area directly next to Metro West Realty and Postal Way.

Breath of Fresh Air for Shopping Strip By Wal-Mart

Dermo Realty is currently giving the small shopping center adjacent to Highway 27 a beautification face lift. For the past several months problems have kept this center from targeting new business. The parking lot was falling apart. The center was faced with many dramatizing issues with former management. Then Dermo Realty came in and completely overhauled the entire center so it can be leased. Retail stores and restaurants will start moving in soon. The center is more visible from Highway 27 because crews also cut down the trees and brush on the hill. The parking lot was recently paved and landscaping redone.
