

# C. JAY SMITH PARK

## Preliminary Skatepark and Pump Track Concept Plan Option 1

### CONTEXT PLAN

### SKATEPARK CONCEPT FEATURE

- A - Landscape Detention Pond
- B - Multi-direction Concrete Pump Track
- C - Skatepark Entrance
- D - Beginners Street Course Zone
- E - Landscape Detention Pond
- F - Interior Skate-able Planter
- G - Medium Street Course Zone
- H - Skatepark Entrance
- I - Street Plaza Zone
- J - Large Stair Set with Handrail
- K - Landscape Detention Pond
- L - Medium Stair Set with Pocket Quarter Pipe
- M - Interior Skate-able Planter
- N - 5' - 8' Flow Bowl
- O - Landscape Amphitheater Seating
- P - Landscape Amphitheater Seating

The first concept for the C. Jay Smith Park consists of a multi-directional concrete pump track, an extensive street plaza with beginner, intermediate and advanced sections as well as an enclosed multi-depth bowl. The street plaza offers a variety of ledges, rails, stairs, banks, transitions and hips all connected to an elevated flow bowl that overlooks the plaza. Integrated amphitheater seating into the existing hillside makes for a great place for spectators to enjoy the action at a safe distance.
